

# WORKBOOKS FOR KIDS & PARENTS ABOUT FIRE

## PARENT, ADOLESCENT AND CHILD HANDBOOKS DEVELOPED BY FIRE STOPPERS OF WASHINGTON

FOR USE IN CONJUNCTION WITH A JUVENILE FIRESETTING INTERVENTION PROGRAM

**FIRE STOPPERS OF WASHINGTON** is excited to offer a suite of publications for use with families of children who have been involved with fire. Three workbooks have been developed to meet the need for effective education tools for kids who misuse fire. These books can be used by fire and mental health professionals or others who provide firesetting interventions.

**A FAMILY'S RESPONSE TO FIRESETTING** includes information for caregivers, as well as a plan of action to help them change their child's behavior.

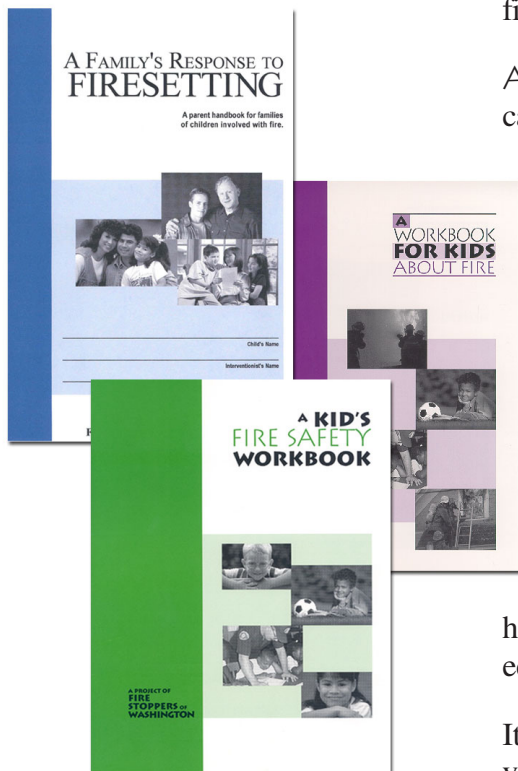

It presents factors that contribute to child fireplay, and gives adults the information to create a safer home environment while involving children in the process.

**A WORKBOOK FOR KIDS ABOUT FIRE** is aimed at the older child and adolescent. The workbook includes information and activities directed at the older reader, yet offered in an easy to use way. It helps kids examine fire behavior and its consequences, then empowers them to make positive choices when it comes to the appropriate use of fire.

**A KID'S FIRE SAFETY WORKBOOK** was developed for younger children, and like the older kid's book, provides information and activities in an age appropriate manner. Both children's books parallel the parent handbook in a way that allows and encourages caregivers to support the educational process necessary to prevent this behavior.

It is recommended that all three books be used in conjunction with an established youth firesetting program and as companions in the intervention process.

All three books are available in **minimum orders of 10 copies per book**. Please use the coupon below for ordering. **For order questions, call 206-624-3330.**
